The improved wire container can be used in the assembly line also. The sides and corners of these shipping cages are heavily reinforced. The optional racking bars can strengthen loading capacity of the storage cage. The transport is very convenient also, you can handle it with the notched, positive stacking legs by forklift, it can access cage from all sides. It can also be used with containers. The finish of zinc-plating or powder coating are both ok for us.

Customized design size is acceptable also. Our folding storage cage is accordance with international standards.

Application: It can be used in workshops and supermarkets for sales promotion and storage.
